X2O GEN2 WIRELESS

WATERPROOF WINCH

SERIES WOUND AMPHIBIOUS TECHNOLOGY

INTEGRATED REMOTE CAN BE USED WIRED OR WIRELESS

The new Gen2 series of Smittybilt X2O winches have been thoroughly updated with heavy-duty features for enhanced performance and comes standard with an integrated wireless remote. The new 6.6HP amphibious motor offers the highest torque in the industry and is connected to a 3-stage Planetary Gear System for increased pulling power and line speed.

All Gen2 X2O Winches come backed by a Lifetime Mechanical Warranty and a 5-Year Electrical Warranty.

The COMP Series difference

If you're after a winch equipped with a state-of-the-art synthetic rope, look to the X2O COMP Series for the ultimate in pulling power. Smittybilt's exclusive Dynamic Braking System reduces drum temperatures by 66%, making it perfectly suited to operate all types of synthetic ropes.

X2O COMP SERIES

DYNAMIC INDUCTIVE BRAKING SYSTEM

- Synthetic rope approved
- 66% less heat generated than traditional dynamic brake drums

	Ambient Temp.	Initial of Drum	Work Cycle	Final Temp.	Rise in Drum Temp.
X2O GEN 2	86°F	86°F	10 min	90°F	+ 4°F
Competitor	86°F	86°F	10 min	158°F	+ 72°F

SYNTHETIC WINCH ROPE

- 1/7th the weight of steel cable – no kinks, curls or wire splinters
- Minimal stretch – non rotational
- UV and abrasion resistant
- Specially coated to prevent slippage
- Includes protective sleeve to prevent overheating

COMPETITION ALUMINUM FAIRLEAD

- High-grade billet aluminum material
- Protects synthetic rope from excessive wear
- Reduces binding and friction caused by angled pulls and will not fray or tangle your synthetic winch rope

MULTIPLE SOLENOID MOUNTING POINTS

4-WAY ROLLER FAIRLEAD, STEEL ROPE AND HAMMER-FORGED HOOK
